HONORING CALIFORNIA'S  
GEOTHERMAL INDUSTRY

**HON. MIKE THOMPSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 21, 2015*

Mr. THOMPSON of California. Mr. Speaker, I rise today to honor California's Geothermal Industry as we celebrate Geothermal Awareness Month. It is important to recognize the success of existing geothermal facilities in California and the great value in promoting the development of new geothermal power, one of California's greatest natural resources.

Geothermal energy is an excellent source of clean, renewable energy that supports thousands of jobs across our district and state. Not only does the production of geothermal energy boost our economy and reduce our dependence on foreign oil, it provides counties with important royalty payments which they use to pay for important priorities like public safety, road maintenance and law enforcement. Furthermore, geothermal energy is critical to California's renewable and low carbon energy goals.

Geothermal energy is locally produced and boosts rural economies through jobs, royalties, tax payments and more. While in development, a geothermal power project will employ hundreds of individuals during construction and post-construction, more than most other renewable technologies. I am proud to represent The Geysers, which lies beneath the surface of Lake and Sonoma Counties, employs 300 full-time employees at Calpine, fifty full-time employees at the Northern California Power Agency's two Geysers power plants and more than 150 contractors. The Geysers is also the largest taxpayer in both Sonoma and Lake Counties.

Geothermal power benefits communities across the state, while providing important environmental benefits. In the south, The Salton Sea Restoration and Renewable Energy Initiative, a plan to save an important source of water and minerals in the state, can add up to 1,700 megawatts of low-impact, cost-competitive geothermal energy to the State's power grid. In the north, the Geysers maximizes the economic and environmental benefits of the resource, and helps reduce greenhouse gas emissions to the equivalent of removing almost half a million cars from the road, meaning cleaner air for local towns and cities.

Mr. Speaker, it is appropriate at this time that we recognize May 21, 2015 as Geothermal Awareness Day and honor California's Geothermal Industry for ensuring that new and existing geothermal power is part of a diverse and sustainable energy mix now and in the future.

CELEBRATING THE PUBLIC  
SERVICE OF JOSEPH HOUCK

**HON. LEONARD LANCE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 21, 2015*

Mr. LANCE. Mr. Speaker, I rise today to honor the distinguished public service of Joseph Houck, who retires after 30 years with the Summit Fire Department including seven years as Fire Chief and Director.

Chief Houck obtained an Associate in Applied Science Degree in Fire Science Technology from Union County College. He is a graduate of the National Fire Academy's Executive Fire Officer Program and also completed the New Jersey's Certified Public Manager Program and received a Bachelor of the Arts Degree in Public Administration from Fairleigh Dickinson University.

Chief Houck started with the Summit Fire Department in 1985 as a volunteer firefighter and became a career firefighter in 1987. Due to his dedication and skill he became a recognized leader in the department and was promoted to Lieutenant in 1995, Battalion Chief in 2000, Deputy Chief in 2005 and Chief and Director in 2008. In addition, Chief Houck served as a New Jersey State Fire Instructor and was the City of Summit's Fire Official.

During his accomplished tenure, Chief Houck achieved a number of significant accomplishments in service to the City of Summit and in the name public safety. The Summit Fire Department was accredited by the Center on Fire Accreditation International—the only Fire Department in the state to earn such recognition—and the Department's reputation for professional and timely service improved under his stewardship. He managed numerous disaster responses, including Hurricane Sandy, and was a vital part of the City's emergency management team. His insight, guidance and experience proved extremely valuable during challenging times.

Chief Houck has also been a member of the New Jersey Career Fire Chiefs Association and has been its liaison to the New Jersey Office of Homeland Security and Preparedness Emergency Services Sector, a member of the International Association of Fire Chiefs and served on its Emergency Management Committee working on interstate mutual aid plans.

I wish Chief Houck many years of happiness in his retirement spent with his wife, Irene, and his children. I thank him for his dedicated public service.

HONORING THE LIFE OF BRUCE  
FARRIS

**HON. JIM COSTA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 21, 2015*

Mr. COSTA. Mr. Speaker, I rise today to honor the life and career of a local Fresno icon, Bruce Farris, who passed away on Wednesday, May 6, 2015 at the age of 88.

Bruce was born on March 25, 1927, in Coldwater, Michigan, to Ross and Ruth Farris. At the age of four, with the Great Depression limiting jobs, the family gathered their belongings and drove to California in their Hudson

Essex automobile. They settled in Reedley and three years later moved to Fresno. There, Bruce attended Daily Elementary School, Hamilton Junior High, and graduated from Fresno High School in 1945. At Fresno High, Bruce played baseball, basketball, and most importantly, during his senior year, he wrote for the Fresno High Owl.

Following high school, Bruce attended Fresno State College for two years where he played basketball and wrote for the Daily Collegian as a reporter and an editor. After college, he worked for the Fresno Guide and the St. Louis Cardinals organization. At the age of 21, he was hired by the Fresno Bee. His career began by reporting on Fresno State athletics, and later expanded to a broader range of sporting events. What distinguished Mr. Farris from other reporters, and what made his career so impressive, was his enthusiasm for his job and his love for all sports. Additionally, Mr. Farris was unbiased and fair, making it a point to report objectively.

While working at the Fresno Bee, Bruce worked with a secretary named Barbara Harper, whom he married in 1955. Bruce and Barbara had three children, Greg, Nancy, and Sandra. They raised their children in a home on First Street, and opened their door to many, from people from church, to neighborhood kids, and friends, relatives, and foreign exchange students. Everyone was welcome in their home at any time.

In 1997, Mr. Farris was inducted into the Fresno Athletic Hall of Fame after decades of covering Fresno State athletics. Afterwards, Mr. Farris went on to report for the Fresno Bee as the newspaper's outdoors and golf writer. He worked at the Fresno Bee for 23 years before retiring in December 2002. Bruce had a truly amazing 52 year long career.

According to his daughter Nancy, Mr. Farris was defined by his faith, love of family, and love of sports, three things which led him to be such a great man. Mr. Farris' loss is heart-breaking for Fresno, and his passing will be felt by the many friends that he has gained throughout the years. Everyone that knew Mr. Farris describes him as a kind man who truly cared for others, and who was respected by everyone who had the honor of knowing him.

Mr. Farris' wife, Barbara, died in 2007. He is survived by his one son, Greg, two daughters, Nancy and Sandra, nine grandchildren, and one great-grandchild on the way. Mr. Speaker, it is with the utmost respect that I ask my colleagues to join me in honoring the wonderful life and distinguished career of Bruce Farris. Mr. Farris' passing is a loss to our community. While his presence will be greatly missed, his legacy will continue through his writing.

MATTHEW GOELLNER

**HON. STEVEN M. PALAZZO**

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 21, 2015*

Mr. PALAZZO. Mr. Speaker, I would like to take this opportunity to recognize Mr. Matthew Goellner as a member of the United States Air Force Academy Class of 2015.

Matthew will graduate from the U.S. Air Force Academy as a Second Lieutenant in the United States Air Force on May 28, 2015.
